

December 2015

## **2015 Year in Review: ACT Foundation Extends Support for Education and Charities**

The Account Control Technology Foundation once again awarded \$50,000 in scholarships to support college education in 2015, and donations raised for other charitable organizations exceeded \$42,000. Released during National Financial Literacy Month in April, the Foundation's "Beware the Debt Monster" video helped build financial wellness through nearly 100,000 views on YouTube and other sites. The Foundation's website also grew in popularity as a consolidated resource for college planning and financial wellness.

From a record number of applications, 50 winners were selected for the Foundation's two college scholarship programs, with each winner receiving \$1,000. The 2015 ACT Cares Community Scholarship Winners List and the 2015 ACT Foundation Second-Year Scholarship Winners List can be viewed on the Foundation's website.

Other contributions made by the ACT Foundation in 2015 included a donation of \$29,660 to Susan G. Komen, which was part of a record \$51,670 donation to the organization and its work to end breast cancer. Other charities receiving support through the Foundation included the American Cancer Society's Relay for Life in Bakersfield, CA; St. Jude's Children's Hospital; Ronald McDonald House; Sandy Springs Mission in Atlanta; Project Graduation in San Angelo, TX; Orange County Animal Shelter in Gainesville, VA; and Critter Shack of San Angelo, TX. In addition, many other organizations were supported with material goods and volunteer efforts from ACT Foundation members.

The ACT Foundation was established by Dale Van Dellen and his wife, Debbie, to build financial literacy, support education, fund vital charities and provide community support.

The Foundation is a non-profit 501(c)(3) organization, and as such is in need of your support. Please help us with a gift through our online donation page at <http://accountcontrolfoundation.org/makeADonation.php> or by sending a note to [foundation@accountcontrol.com](mailto:foundation@accountcontrol.com).

We look forward to another successful year in 2016.
